

## Nobility Pre-Funding – 100% Predictable Revenue

Nobility RCM clients have exclusive access to Nobility Pre-Funding, an option that ensures guaranteed revenue for healthcare organizations. We pay your claims and then collect from the insurance companies on your behalf, giving you immediate access to capital alongside our all-inclusive billing solution.

## How Pre-Funding Works

### Analysis

Our team performs a free coding and billing analysis to rate reimbursement performance and determine if your business is a candidate for Pre-Funding.

### Assessment

We evaluate the current Accounts Receivable and past production of your practice to set the Pre-Funding amount.

### Approval

If the analysis and assessment lead to an approval, you are invited to apply for Pre-Funding and a revenue payment schedule is provided to stabilize your cash flow.
